

EZEALIGO CHIDALU ELLA

Junior Software Engineer | Java · Spring Boot · React · TypeScript · UI/UX

chidaluezealigo@gmail.com | 09021996620 | Nigeria

PROFESSIONAL SUMMARY

Junior software engineer with a UI/UX design background, building full stack applications using Java, Spring Boot, and React. Experienced designing and shipping production-ready interfaces with a strong focus on clean architecture and user experience.

PROJECTS

Full Stack Task Manager

- Developed a full-stack task management application using Spring Boot (Java) and React with TypeScript, implementing secure JWT-based authentication and complete CRUD functionality for task operations.
- Designed and built a RESTful API backend with Spring Boot and PostgreSQL, featuring role-based access control, stateless JWT authentication, and layered architecture following REST best practices.
- Built a responsive, type-safe frontend in React + TypeScript that consumed a custom-built REST API, handling authenticated user sessions, protected routes, and real-time UI updates for task creation, editing, and deletion.

Finance Dashboard with Rest API

- Developed a responsive dashboard UI that consumed and visualized data from a Spring Boot REST API, delivering a polished, production-quality interface across desktop and mobile devices.
- Built interactive charts and tables to visualize financial data, with a Spring Boot-backed form enabling users to add upcoming bills.
- Implemented mobile-first responsive design principles to ensure consistent UI/UX across screen sizes, improving accessibility and usability for end users on any device.

Board Intelligence Brief

- Sourced real financial data from GTCO's 2024 Annual Report and built a single-page board brief with 6 KPI cards, a 5-year mixed bar/line chart, regional PBT breakdown, and subsidiary snapshot.
- Architected a full CSS design token system with dual-font pairing and a semantically mapped colour palette, plus a @media print stylesheet for one-click PDF export.
- Added ARIA labels on every chart canvas and semantic role attributes throughout, making the brief fully screen-reader accessible.

EDUCATION

Diploma Computer Science

Aptech Learning Institute
Nigeria

Jan 2025 – Feb 2027

SKILLS

- Java
- SpringBoot
- Rest API
- React
- Figma / wireframing
- Typescript
- Hibernate/JPA
- Git/Github
